**Mind**

The aspect of a person that enables perception, thinking, consciousness, and rationality. It encompasses mental processes such as cognition, memory, emotion, and the ability to reason and make decisions.

**Balance**

The state of equilibrium and harmony between the mind, body, and soul, leading to overall well-being and health.

**Body**

The physical structure of a living organism, composed of organs, tissues, and cells, responsible for movement and sensation.

**Soul**

The spiritual essence or inner self, often considered the source of emotions, intuition, and a connection to a higher power or universe.
